Dear Mr. Henderson,

I have learned no more about the Mrs. Beck mentioned on the last page of PHOTOGRAPHIC WHIRLWASH. I will ask my colleague Richard Sprague, who has done very, very well with following down the leads on photos, if he has.

If you can do anything toward learning whether this film ever existed or if it does and can be located, that could be valuable. Or, for that matter, anything else about film.

I have no way of forming an opinion on thevalidity of this information. It strikes me as unusual for a traveller to be using 16 mm film in the US unless she were a real photographer, better off financially than most, etc.

Thanks for your kind words and encouragement.

Sincerely,

Harold Weisberg
